

NZQA Verified Degrees

All overseas-qualified applicants must have their qualifications reviewed by the [New Zealand Qualifications Authority](#) to confirm the **level of qualification** (ie. masters, diploma, etc) unless:

- You were awarded a Master of Audiology or a Doctorate of Audiology by an accredited¹ university in Australia, Canada or the United States of America.

OR,

- Your international audiology / audiometry qualification has previously been assessed by NZQA, is listed in the table below and was awarded in the last 10 years.

If your qualification is listed below but was awarded more than 10 years ago (prior to 2013), please proceed with a [NZQA Assessment](#).

If your qualification is not listed below, please proceed with a [NZQA Assessment](#).

The following qualifications have been assessed by NZQA in the last 10 years.

Country	Qualification Title	Awarding Tertiary Institute
Australia	Diploma of Audiometry	TAFE Australia
China	Master of Science in Audiology	University of Hong Kong
India	Master of Audiology in Speech and Hearing	University of Mysore
	Master of Science (Audiology)	Manipal University

Philippines	Master of Clinical Audiology	University of Philippines Manila
	Master of Clinical Audiology	University of Philippines Manila
Singapore	Master of Science in Audiology	National University of Singapore
South Africa	Bachelor of Communication Pathology (Audiology)	University of KwaZulu-Natal

Please note, validation by NZQA does not mean your qualification has been accepted as being sufficient to practice clinically in New Zealand. NZQA assesses the level of the qualification, but to practice as an audiologist or audiometrist in New Zealand you must also demonstrate that your qualification and coursework reflect the minimum clinical competencies necessary to practice in New Zealand. Within the application form, there is a mapping tool provided for you to complete.

¹ To ensure that your Masters or Doctorate is from an accredited university in one of these countries, please check here:
