

We are looking to recruit a fully qualified MNZAS Audiologist to take up a full time position within our team.

Hearo Ltd is an independent, Waikato based, family business. We are a young, dynamic and growing company. Hearo's ethos is quality, value and trust. We offer clients a personal, individual experience in an unrushed environment.

We have brand new clinic facilities and a team dedicated to supporting all the clinician's requirements. We offer a highly competitive professional wage, an option of a company car, private medical insurance. We would also assist with a generous relocation package.

Hearo has a light touch, "servant leader" management style, we believe that as professionals, our team should be empowered, heard and included in the exciting plans ahead. Our team meets regularly for case discussions and to review the latest best value hearing aid technology for our clients.

We encourage time for study and professional development.

Our team spend a proportion of their time doing work to support the vulnerable in society; we are actively looking for cases where people "fall through the cracks" and provide fully funded hearing support. We are also proud sponsors of hearing dogs for the deaf and get a new doggy biography each month to coo over!

Top of our wish list for an applicant are the qualities of kindness and empathy, patience and humour, good communication skills, high clinical standards with a desire to continue learning, a full driving license. If you can play the Ukele even better!

But- it's not Auckland !!

Hamilton is a city on the move, offering fantastic lifestyle opportunities and value for money. (I live on a lifestyle block, now an Olive Farm, 20 minutes out of the city, a perfect balance between urban and rural)

We would like to offer the option of spending the day with us and having a grand tour, including a full days pay, travel and dinner expenses.

Please send expressions of interest (treated with absolute confidence)
