

Don't miss the chance to join the revolution!

Audiologist opportunities in Kerikeri, Remuera & Timaru

Resonate is different. We're revolutionising hearing health and wellness.

Our business model is inspired by my fifteen year career listening to customers talk about what they really want in a hearing health provider.

I wanted Resonate to have a foundation of innovative and inspirational audiology and a team obsessed with exceptional customer outcomes. We've done just that. Founding this unique audiology business is the highlight of my career. Please have a look at our website to find out more www.resonatehealth.co.nz.

Resonate has been built from the ground up. We have not been formed through acquisitions, so we are not burdened by legacy systems and processes that get in the way of providing the best hearing outcomes.

As an MNZAS audiologist or audiometrist, I invite you to join us as we continue to expand this extraordinary business.

In just two years, we have achieved so much. Launching in November 2022, we have rapidly grown to 23 studios across New Zealand, with another five already secured. More than 2400 Kiwis have now subscribed to our innovative hearing health service. We knew it would be special when we launched, but our wildest dreams have been exceeded. We have also been recognised publicly, winning awards for innovation, healthcare, and customer service.

If this feels like a business you want to be part of, then please get in touch.

What can you expect as a Resonate audiologist?

Respect, autonomy, accountability and the freedom to do your best work.

You will join an exceptional team that will make you feel like part of the family and give you the chance to work with outstanding health Navigators.

Career development includes weekly learning opportunities, business mentoring from the CEO (we have no hierarchy, so you will never feel like a number), NZAS membership and conference attendance every year, plus the Resonate Let's Talk annual event, bringing the whole team together to celebrate our achievements.

We only use the very best diagnostic and hearing aid technology. Every Resonate customer is prescribed Nexia9 devices in any form factor that they choose.

Every audiologist joins Resonate on the same salary level of \$150,000 (FT equivalent). We believe in transparency and a pay-for-performance culture. We do not pay bonuses; we believe you will be a more exceptional audiologist without the pressure of sales targets and KPIs.

We offer a generous scheme for friends and family to jump on board with our hearing aid subscription service. You also get to access the Tahua Group business discounts, including Torpedo 7, Hannahs, Number1 Shoes, and Starbucks, amongst others.

There is so much more to tell you, so I invite you to email or call me to arrange a personal (in confidence) 1-1 to learn more. Let's talk!
